

**FOR IMMEDIATE RELEASE**

## **Mozambique Gas & Energy Summit & Exhibition Charts Over 10 Years Of Powering Positive Progress**

*Maputo, Mozambique* – The tenth anniversary edition of the Mozambique Gas & Energy Summit & Exhibition will take place from 22 – 24 September 2025, at the Joaquim Chissano Convention Centre in Maputo.

Bringing together over 3,750 expected attendees, the milestone edition of the Summit will gather key Mozambican and international government, ministerial and industry stakeholders along with IECs, NOCs, EPCs, investors, developers and private sector value chain participants to engage in offtake negotiations, project tenders, multilateral partnerships, technology showcasing, and knowledge and best practice exchange.

Endorsed by the Mozambique Ministry of Mineral Resources and Energy (MIREME) and organised by dmg events in partnership with Empresa Nacional de Hidrocarbonetos (ENH), the Summit also promotes and empowers the development of local content to serve as a platform to evolve the Mozambican energy landscape to ensure long-term future success for the country and its citizens within the global energy community.

Since 2013, the Mozambique Gas & Energy Summit & Exhibition has established itself as the official platform for the international gas, LNG and energy sector in Mozambique. The Summit has charted Mozambique's numerous energy megaprojects at various phases of development and provided a transformational showcasing of opportunities for both public and private sectors to collaborate to ensure that the innovations and technologies being deployed are an enabler for local jobs creation, technical capacity and knowledge development, socioeconomic growth and a positive contributor to a decarbonised and sustainable energy transition.

Themed *Powering Positive Progress*, the tenth anniversary edition of the Mozambique Gas & Energy Summit & Exhibition will celebrate over ten years of energy industry developments as well as presenting the opportunities within the country's energy sector over the next five years.

Key industry milestones platformed at the Summit include the launch and presentation of Mozambique's Gas Masterplan in 2013 and the signing of a 20-year long-term LNG offtake contract between bp and Mozambique Rovuma Venture S.p.A. in 2016.

Key energy industry opportunities on Mozambique's horizon include 100tcf of proven natural gas reserves, 12,500mw estimated hydropower potential, and 2.7gw of potential solar energy resources.

To launch the landmark edition of the Summit, a press conference was held on Wednesday 26<sup>th</sup> February 2025 in Maputo, hosted by dmg events and its partners ENH.

The press conference was an opportunity for key developments in the Mozambican energy sector to be shared, as well as the revealing of new elements of the Summit that will aim to add value across the energy industry value chain and increase socio economic impact.

The press conference saw the unveiling of a new partnership formed between dmg events, the organisers, and Field Ready, whose proprietary and innovative youth employability platform nurtures pre and post education candidates through industry STEM, capacity building and training programmes to ready them for jobs in the field.

Associated with the youth employability platform is the annual Generation Ready meeting that gathers both qualified candidates with prospective employers. The event in Mozambique has been the gathering place for all those companies who recognise the value in unlocking the talent of young Mozambican men and women.

The dmg events and Field Ready partnership will aim to integrate the Generation Ready meeting as part of the tenth anniversary edition of the Summit, to position Mozambican youth at the forefront of the opportunity and to engage with government and industry to share ideas, champion progress and collaborate as never before.

Speaking at the press conference Phil Andrews, Founder of Field Ready shared that “On behalf of the Field Ready family, I am delighted that future editions of the Generation Ready event in Mozambique will be operated in collaboration with our partners dmg events and that the next meeting of the Field Ready Alliance (Generation Ready 2025) will be held alongside the Mozambique Gas & Energy Summit & Exhibition in September this year. We look forward to a fruitful and growing partnership with the Summit organisers.”

Also present was dmg events Senior Vice President – Energy, Damian Howard who reflected that “Africa’s youthful population, that has a median age of 19, will be the driver of demand for decades to come. We and our partners Field Ready are here for the long game. Generation Ready is more than just another CSR initiative, but a bold and dynamic empowerment platform where the next generation drive the agenda.”

**END**

## **About The Mozambique Gas & Energy Summit & Exhibition (MGES) 2025**

### Convening The International Gas, LNG & Energy Industry In Mozambique For Over Ten Years

The Mozambique Gas & Energy Summit & Exhibition will gather key Mozambican and international government, ministerial and industry stakeholders along with IECs, NOCs, EPCs, investors, developers and private sector value chain participants to engage in offtake negotiations, project tenders, multilateral partnerships, technology showcasing, and knowledge and best practice exchange.

Endorsed by the Mozambique Ministry of Mineral Resources and Energy (MIREME) and organised by dmg events in partnership with Empresa Nacional de Hidrocarbonetos (ENH), the Summit also promotes and empowers the development of local content to serve as a platform to evolve the Mozambican energy landscape to ensure long-term future success for the country and its citizens within the global energy community.

Participation is expected from across the global gas, LNG and energy value chain including:

- 3,750+ attendees
- 1,000+ conference delegates
- 275+ international exhibitors
- 175+ expert industry speakers
- 45+ countries represented from around the globe

### **About ENH (Empresa Nacional de Hidrocarbonetos)**

ENH (Empresa Nacional de Hidrocarbonetos) is the Mozambican state entity responsible for research, prospecting, production and marketing of petroleum products and represents the State in petroleum operations.

Created in 1981, ENH has adjusted its corporate structure to the needs of the industry and the national and international market, establishing itself as a business group with the competence to participate in all oil operations and in the respective phases of research, exploration, production, refining, transportation, storage and marketing of hydrocarbons and their derivatives, including LNG and GTL, both within and outside the country.

Our performance as an integrated group and through the partnerships we have established in recent years, has allowed us to guarantee our core business, Upstream, with actions focused on research, development and production of Oil and Gas with the main objective of increasing the probabilities of discovery in the research phase and optimizing the recovery of resources in the production phase. At the downstream level, we continue the value chain of the hydrocarbons sector with the aim of diversifying and expanding the use of gas in Mozambique.
